In Honor of Dr. Daniel Roberts! Doctor Roberts will always be a hero to me. Not only as a patient from the time I was 9 years old until he retired, but as a teenager whom he took under his wing, taught me the importance of professionalism, attention to detail and appreciation of achieving success and what is referred to as the "Finer Things In Life". Doc Roberts was the best thing that could have happened to a young teenager, looking for direction who just happened to start working for him scrubbing floors, cleaning his office and eventually being taught to assist him in his practice. He was a perfectionist in his dental/surgical skills, an artist in his execution and a compassionate professional when dealing with families who could not afford dental health, especially in his early practice in Philadelphia. Doctor Roberts was ahead of his time in providing dental health care. Formalities aside, Doc Roberts has always been someone special to me and my family and I will always cherish his friendship, his guidance and his influence in my life and career. I will remember always our last phone chat. I have been lucky to have known this man. My best wishes to Estelle and family. Shalom Doc!
