“ I went to ctk grade school with Dave. He was a great friend. He had my back at all times. I'll never forget him. Rip orzo. See you on the other side my brother.

“ David came to help my wife Lynne (David's sister) and I put in a large cement slab in our yard. I remember how he easily carried those 80lb bags of concrete, they were heavy! At least they were for me. David was strong. He and I worked for about 3 hours straight mixing and pouring the concrete by hand. The slab turned out perfect, David leveled it off with perfection. We had some cheesesteaks for lunch that day and I really enjoyed getting to know him, it was only the 2nd time we met.

So sad. 57 is just too young. He was taken far too soon and I know it's so painful for Nikki, the kids and of course, Lynne, Joyce and Karen. May god bless you and guide you all in this difficult time.

“ I remember the first time David came to visit me in Florida. He wasn't living there yet. We went to Pompano Beach for the day and he went swimming and came running out because a giant sea turtle came by to swim next to him. we laughed so hard. then years later he moved to Florida. So many memories, but that one sticks out in my mind today. I love you with all my heart. Miss you David.

“ David was my brother. He was a really great brother always had my back. We grew up like twins though we were 2 years apart. I remember going out to eat with him. I remember as we were little talking our darkest secrets. I remember waiting till he sat down and asked him for something and he got up for it. Yes I always waited till he sat down. He helped me with so much , he was my go to for stuff I needed done around the house. When we talked to each other he talked to me like time never went by even if it was months. He will truly be missed by me and I love you David. Love you so much Your sister Lynne

“ David was my brother, a strong, loving man, who learned from our parents that it is right to love your family; work hard and honestly; to be a good neighbor, and to be the best man he could be.
